EDUCATION

B.Tech in Computer Science, Bennett University, Greater Noida
CGPA: 8.0/10

09/2022 – 05/2026 | Greater Noida, India

High School, Aklank Public School
12th Grade:76.70% | 10th Grade:87%

04/2021 – 08/2022 | Kota, Rajasthan

PROFESSIONAL EXPERIENCE

Oasis InfoByte, Backend Developer

2024 | Hybrid

Developed and optimized backend APIs during internship at Oasis Infobyte, enhancing database efficiency by 25% and contributing to the development of a scalable e-commerce platform handling 1,000+ products.

SKILLS

Languages — Java | SQL | Javascript

Frontend — Html | CSS | Javascript

Web Development - framewroks — React.js | Node.js | Express.js | Redux | Material UI | Tailwind CSS | Mongo DB | MYSQL

Database — MongoDB | MYSQL

Tools — Git | GitHub | GitHub Actions | JWT | OAuth | REST APIs | AWS | MY SQL Workbench | Visual Studio Code | Figma

Core Skills — Object-Oriented Programming | Data Structures & Algorithms | REST API Development | SQL Optimization | Operating Systems | DBMS

Soft Skills — Leadership | Teamwork | Communication | Problem Solving | Public Speaking

PROJECTS

Expense Tracker Web App – “Save Smartly”,

04/2025 – 05/2025

HTML, CSS, React.js, Node.js, Express.js, MongoDB, Redux, Material UI, JWT, OAuth 

- Designed REST APIs with JWT session persistence, enabling 99.9% uptime for 100+ daily active users.
- Integrated Chart.js for dynamic, device-responsive visualisations with theme toggling.
- Deployed on Render with auto-scaling, supporting 3x traffic spikes without downtime.

Blog AI,

07/2025 – Present

HTML, CSS, React.js, Node.js, Express.js, MongoDB, Redux, Tailwind CSS, JWT, OAuth 

- Built a full-stack blogging web app using the **MERN stack**, enabling seamless content creation, editing, and user management.
- Integrated **Gemini API** to auto-generate high-quality blog drafts, boosting writing speed by **70%** and reducing manual effort by **50%**.
- Achieved **99.9% uptime** with secure JWT authentication, role-based access, and scalable deployment, handling **500+ daily active users**.

Quick Groc,

04/2024 – 05/2024

HTML, CSS, React.js, Node.js, Express.js, MongoDB, Redux, Material UI, JWT, OAuth 

- Implemented JWT + Refresh Token authentication with role-based access control, securing 100% of admin/customer.
- Optimized MongoDB queries with compound indexing, cutting average API response time from 220ms → 140ms.
- Integrated Stripe API for seamless payment processing and automated invoice generation.

CERTIFICATES

- Certificate in Design and Analysis of Algorithm
- Certificate in Data Structures 
- Agile methodologies

AWARDS & ACHIVEMENTS

Smart India Hackathon, SIH

2024

- Ranked **Top 15% (37/250 teams)** by building a scalable digital solution for problem statements.

RESEM 3RD PRIZE, IEEE

2023

- Awarded 3rd Prize in the IEEE Research Seminar (RESEM) for contributing innovative insights.

VOLUNTEER EXPERIENCE

- Technical Member-Geeks for Geeks Conducted Various events in our college, which resulted in increasing 40% students
- Management team member-GDSC Conducted various technical workshops, which resulted in the upskilling of students

COMPETITIVE PROGRAMMING

Leetcode 

350+ problems solved in JAVA, 1700+ Contest rating
